Attn: Mail Stop Missing Parts

Dear Sir:

Second Preliminary Amendment

The first preliminary amendment inserted a priority claim and made certain other changes, and then submitted a substitute specification purporting to incorporate all of the requested changes. It has been noted that the substitute specification failed to include the priority claim change made by the first preliminary amendment. Thus, there is currently an inconsistency in the current record regarding what is intended with respect to the priority claim.

To clarify this matter, this document reconfirms that the specification amendment relating to the priority claim described on page 2 of this document should be entered if not already entered.

No additional fees are believed necessary for the entry of this second preliminary amendment. However, if any are, please charge Deposit Account 17-0055 for the amount of the fee.

Respectfully submitted,

LUET L. WONG ET AL.
